

HARDIN PUT BACK ON HIS FEET TWICE

Was Relieved of Both Rheumatism and Stomach Trouble by Tanlac, States Los Angeles Man.

"For the second time Tanlac has put me on my feet, and you may know by this what I think of it," said William T. Hardin, 1409 Garden St., Los Angeles, Calif.

Three years ago, I had rheumatism in my shoulders and neck so bad I could hardly work. I tried medicine after medicine only to get worse, but finally I got hold of Tanlac, and I haven't had a trace of rheumatism since.

Then last summer my stomach got out of order. I lost my appetite and what little I did eat made me feel bloated, all stuffed up and miserable. I always felt weak, tired and worn out, and was so nervous I couldn't sleep.

"Well, Tanlac did a good job for me before so I just got some more of it, and now it has again fixed me up, and I'm feeling strong and energetic like I used to. I'll tell the world Tanlac's the medicine for me."

Tanlac is sold by all good druggists.

Little Mabel's Query.

Little Mabel, eight years old, has passed much of her young life in the company of grown-ups, and had acquired many of their old ways or habits. An elderly lady visited the aunt with whom Mabel lived. Mabel had heard the stereotyped expression, "You're growing old," and was concerned. "No, after this old lady took her departure, Mabel sprang a surprise upon her elders by remarking: 'Auntie, isn't Mrs. Brown a well-pickled old lady?'"—Judge.

WHY THAT BAD BACK?

"Those spring beds you miserable with an aching back? Do you feel lame, stiff, tired, nervous and depressed? Isn't it time then, you found out why you are unable to enjoy these fine spring days? Likely your kidneys have weakened. Winter is hard on the kidneys. Colds and chills and a heavier load of work exhausts and then heavily laden little wonder spring finds you with backache, rheumatic pains, headaches, dizziness and bladder irregularities. But don't be discouraged. Use Doan's Kidney Pills. Doan's have helped thousands and should help you. Ask your neighbor."

An Illinois Case

Mrs. Joe Reeves, 24 South First St., Greenville, Ill., writes: "I could hardly keep up my kidneys were in such terrible condition. My back ached constantly and sharp, shooting pains came in the small of my back, so I could hardly stand or walk. I tried many other pills but they did not help. I then got Doan's of my store, 60c a box."

Exported Booze May Flow Back

Liquor Sent Abroad Before Volstead Act Went Into Effect Has Chance to Return.

JOKER IS SEEN IN THE LAW

Permits Reimportation of Whisky Shipped Before Law Became Effective—Billion Dollars' Worth May Come Back.

New York.—Liquors having a value in the legitimate market of more than \$200,000,000 and worth in bootleg channels more than \$1,000,000,000, shipped from the United States to foreign countries just before the Volstead act went into effect on January 16, 1922, eventually will find their way back to this country, under the provisions of the Willis-Campbell act passed by congress last November to supplement the national prohibition law, according to John D. Appleby, general prohibition agent in charge of New York and New Jersey.

Big Shipment Enters.

Already one big shipment has been made to this country under the provisions of the supplemental law. Gin valued in bootleg circles at \$3,000,000 was reimported from Cuba about two weeks ago. The distillery which made the shipment had gone out of business, a fact that apparently was not discovered by the government agents until the gin had arrived here. A special permit had to be obtained from Washington before it could be stored in a local warehouse, pending its withdrawal for medicinal purposes on permits from the director's office.

Prohibition agents were notified in checking up the cargo to note on the manifest 112 empty barrels. They have not yet been able to make out the reason for the empties, but Federal Prohibition Director Ralph A. Day regarded it as a suspicious circumstance.

The passage of the Willis-Campbell law, ostensibly for the purpose of killing medicinal beer, has made it possible for the thirsty to be supplied with good liquors for a much longer period than appeared likely before the measure was adopted, prohibition officials said. In some quarters the provision for the reimport of liquors was considered as a "joker."

Stored in Other Countries.

The law provided "that the commissioner may authorize the return to

the United States, under such regulations and conditions as he may prescribe, any distilled spirits of American production exported free of tax and reimported in original packages in which exported and consigned for redelivery to the distillery bonded warehouse from which originally removed."

Liquors have been stored in France and other countries in large quantities, according to Mr. Appleby. The prohibition department plans to scrutinize carefully the applications for permits to reimport.

What is regarded as another "joker" in the supplemental law is the provision which exempts payment of tax and penalty for distilled spirits upon which the tax has not been paid which are "lost by theft, accidental fire or other casualty while in possession of a common carrier subject to the transportation act of 1920 or the merchant marine act, 1920, or if lost by theft from a distillery or other bonded warehouse."

Five Tribes Pay Their Own Way

Education of Oklahoma Indians Is Almost Entirely Paid for Out of Own Funds.

AGRICULTURE IS EMPHASIZED

Have Nine Boarding Schools, Seven Contract Schools and 2,306 Public Districts—Industrial Work Featured.

Muskogee, Okla.—The modern American Indian may be said to be paying his own way in pursuit of an education, for nearly all funds expended in the education of the Indians of Oklahoma belong to the tribe administered under the department of the interior, according to H. C. Calhoun, supervisor of the Five Civilized Tribes schools here. These schools form the largest unit of Indian schools operated under one supervision in the country, he added.

The tribal boarding schools are maintained for each distinct tribe and the completed educational plants. Each is equipped with kitchen, dining room, dormitory, laundry, hospital and facilities for industrial and academic education. Most of these schools have a large acreage which is tilled and the product used in the maintenance of the school.

Emphasize Industries.

Agriculture is emphasized in all the Indian industrial schools, although shop work, carpentry, leather machine and metal work, housemaking for girls and scientific home economics are all a part of the industrial course. The industrial program is a part-time process, Mr. Calhoun explained, with the pupil devoting half his time to industrial education and half to academic instruction. The academic courses are designed particularly for the Indian.

Six of the contract schools are denominational institutions, according to Mr. Calhoun, while the seventh is a state agricultural school. Courses in these institutions include the industrial and academic.

SAY THAT LINER IS UNSINKABLE

Might Float If Cut in Two, Belief of Experts.

Lone Star State on Maiden Voyage to Aid American Sea Commerce—Captain Engages Orchestra to Play Jazz.

New York.—Keen competition has developed in the race for supremacy on the seas. The latest addition to the fleet that is keeping the American flag to the forefront in the sea commerce of the world is the steamship Lone Star State, recently delivered from her builders to the United States Lines, which has just sailed on her maiden voyage to Bremen.

In the Lone Star State, as in other passenger carrying vessels constructed under government supervision, the element of safety was of prime consideration. It is declared that the new liner is practically unsinkable. Originally

planned as a transport and later designated to act as a hospital ship to bring back American wounded from France, the Lone Star State was built torpedo proof as nearly as human ingenuity could make her.

The vessel has thirteen water-tight compartments. Shipping men who have inspected her have declared that even if she were cut in twain each half would remain afloat.

From the standpoint of comfort, nothing has been left undone to make her a luxurious vehicle for sea travel. She carries two classes of passengers, first and third. Full attention has been given to the cuisine and amusement facilities on the Lone Star State. The chefs and the kitchen personnel have been carefully selected with a view of rivaling the dining service of a first-class hotel ashore.

Captain Frank T. Burkhart, who is impresario as well as navigator, said before he sailed that he had adopted as his slogan "A bas ennui," which

Two Dogs "Luxury" in Berlin.

Berlin.—Ownership of two or more dogs is classed as "luxury" here and extra heavy taxes are imposed under a new schedule.

It is estimated that the owners of 140,000 dogs in Berlin must pay the government 50,000,000 marks for license.

Red Wing, Minn.—When eight-year-old Pierce Seebach fell in to the Mississippi river, coming to the surface 20 feet from shore, his dog plunged in and swam around until the boy seized his hind legs. Then the dog towed its master to a floating cake of ice, from which he was rescued by onlookers.

The supervisors of the schools of the five civilized tribes—Cherokee, Choctaw, Chickasaw, Creek and Seminole—has to deal with three phases of school activity which are ranked in importance as follows: Tribal boarding schools, public day schools and private contract schools.

Have Nine Boarding Schools.

There are nine tribal boarding schools and seven contract schools, while the public day school system includes 2,306 districts with an enrollment of about 18,000 Indian children. The supervisor's office has jurisdiction over the Indian pupils only in these day schools, and over the public school as well.

The tribal boarding schools are maintained for each distinct tribe and the completed educational plants. Each is equipped with kitchen, dining room, dormitory, laundry, hospital and facilities for industrial and academic education. Most of these schools have a large acreage which is tilled and the product used in the maintenance of the school.
